Paxton

Smart access control
and door entry systems

Product Selection Guide

Contents

Welcome

This Product Selection Guide is designed to help you to choose the right products to build up an access control system.

Paxton produce a variety of security solutions to suit different site requirements. Our one door philosophy means doors can be added as required or when budget becomes available.

What's new?

Paxton10

Paxton10 is a single platform solution combining access control and video management. It is a versatile solution that supports multi-site management and remote access. Scalable from 1 to 1000 doors, and 1 to 1000 cameras, Paxton10 is suitable for all building types and sizes.

- Easy to quote and configure, build a complete system with just five components
- Manage multiple sites on a single system remotely
- Web-based user interface with no configuration required
- Custom dashboards to suit any user requirements
- Built in **Bluetooth**® to use phone or smart watch smart credentials
- Works with Entry and PaxLock Pro

Networked
Access Control

Our networked access control system, Net2, is administered using one or more PCs and can be monitored and managed from a central location. Our door controllers come as IP, wireless or battery powered.

▸ Net2 is Paxton's flagship access control product

▸ A powerful networked system that addresses the needs of the mid-market

▸ Modular approach for simplicity and scalability

▸ Simple intuitive software

▸ Range of features that move beyond basic access control

▸ A complete solution that encompasses wireless and door entry

Networked Access Control

Net2 plus
Wired Controller
▶ A networked IP ready single door controller

▶ On-board TCP/IP connection allows direct connection to a network

▶ Can connect together with dedicated RS485 network

Networked Access Control
Building Control - I/O Board

When a valid fob is presented to the reader, the I/O board can be programmed to trigger the power to lighting, heating and electrical equipment.

The Net2 I/O board is a simple, yet powerful addition to the Net2 system. It can be wired alongside a Net2 door controller, to switch power on and off to electrical equipment to save money and energy. The Net2 I/O board can control power to lifts, lighting, heating, water and air-conditioning by using the Triggers and Actions application in the Net2 software. These actions can be programmed for a particular time, or in response to a specific Net2 event.

▸ Connect directly to a LAN/WAN only

▸ Enable integration with lifts, lighting, heating and more

▸ 4 inputs and 4 outputs on the Net2 I/O board

⚠ Please note, Net2 I/O boards work as part of the Net2 system. They are not door controllers.

Net2 Readers

These readers are for use with Net2. Designed to fit in seamlessly in any environment, our wide range means you get the right choice for your site requirements.
✱ Indicates readers that have functionality to read HID™ 125kHz Proximity tokens, using Genuine HID Technology™ 125kHz. This is enabled using Genuine HID Technology™ Proximity activation licence cards or Wiegand activation licence cards (if the reader needs to provide a Wiegand output), both sold separately (see Tokens section, pg., **pg.14**).

Access Control and Video Management

Paxton10 is a single platform solution combining access control and video management. Scalable from 1 to 1000 doors, and 1 to 1000 cameras, Paxton10 is a versatile solution suitable for all building types and sizes.

▸ Easy to quote and configure, build a complete system with just five components

▸ Manage multiple sites on a single system from anywhere with an internet connection

▸ Web-based user interface with no configuration required

▸ A range of cameras available as well as being compatible with third-party IP video cameras.

▸ Custom dashboards to suit any user requirements

▸ Built in **Bluetooth®** to use phone or smartwatch smart credentials.

▸ Works seemlessly with Entry and PaxLock Pro

Access Control and Video Management

Paxton10
Access control. Video management. One system

▸ Single door controller architecture for ease of install and flexibility

▸ Feature rich video management solution embedded in the cameras, no third-party integration required

▸ Built-in Bluetooth® wireless technology, supports free of charge smart credentials

▸ Fully compatible with Entry, our award-winning video and audio door entry solution

▸ Fully compatible with PaxLock, our wireless door handle range

▸ Distributed intelligence to increase reliability

▸ Powerful multiformat readers and keypad, reads Paxton, MIFARE®, HID™ Prox, EM, FeliCa, NFC and DESFire token technology

Access Control and Video Management

Paxton10 Cameras

Paxton10 includes Paxton's own video management solution and range of cameras, providing a single point of management for system users. A Paxton10 system can manage up to 1000 cameras including integration with third party IP cameras.

▸ Vari-focal and mini (2.8mm) options available

▸ Industry leading low light performance (0.01 Lux)

▸ 8MP 4K resolution for crystal clear recording

▸ IP67 rated for internal and external use

▸ IK10 rated robust metal construction

▸ 128GB surveillance quality on camera storage included

▸ Edge and centralised recording capability

▸ Simple configuration

Access Control and Video Management
Paxton Connect

Paxton Key App

Paxton10 Software
A web-based user interface that is intuitive and easy to use.

Accessible from any device with an internet connection, the interface makes remote site management simple. The software comes as a native part of the system with a Paxton10 server. It has a range of intelligent features to maximise efficiency and optimise the combined access and video management solution.

▸ Web-based software – no installation, plug-ins or upgrading required

▸ Free of charge – simple online updates with no ongoing charges

▸ Suitable for touchscreen and desktop devices

▸ Optimised for use on PCs and tablets

▸ Low battery alerts, easy to monitor back up battery state

▸ Flexible and secure remote access

Features:

Dashboards - Customised dashboards to suit any user requirements

Reports - Powerful reporting engine where all system events and videos can be reviewed

Site plans - For the visual management of the system

Tutorial wizards - Support new and existing users to make full use of the software

People - Manage user permissions, credentials and information

Rules - Set permissions, time profiles, triggers and actions and much more

Devices - Configure and manage the devices in a building

Paxton10 Apps

Paxton Connect
Flexible site management

The Paxton Connect app provides easy and flexible site management for Paxton10. Containing easy to use features in one smart user interface, Paxton Connect enables you and your customers to manage multiple sites remotely from a smartphone.

Features:

People - Manage user permission, credentials and information

Reports - Access all system reports from your smart device or tablet

Devices - Configure and manage all devices on site

Dashboards - Access custom dashboards for personalised system overview

Paxton Key
Utilise smart devices as access tokens

The Paxton Key app allows system users to make use of their smartphone, smartwatch or tablet in place of traditional tokens. These are called smart credentials and can be issued free of charge. Utilising the built-in Bluetooth® wireless technology in Paxton10 readers, the smart device can securely communicate with the Paxton10 system to grant or deny access. Paxton Key also enables the user to carry out predefined building management functionality – such as setting the intruder alarm.

Download the free apps from the **App Store or Google Play**

Door Entry

The Entry system works standalone or alongside Net2 or Paxton10 to combine door entry with access control. Entry is a scalable solution, allowing expansion of up to a hundred panels and a thousand monitors.

▸ Just three components - monitor, panel and door controller

▸ Premium, standard, audio, and vandal resistant solutions available

▸ Intruder alarm integration - set the alarm in Net2 from the Entry panel for extra convenience

▸ Pan/tilt camera functionality to capture an angled view

▸ Low light sensitivity camera - ideal for use day or night

▸ SIP compatibility - the door can be answered from smartphone, tablet or PC

▸ Add a secondary IP camera for higher security sites

Entry

A smart, simple door entry system.

▶ Panels available in three variants: the Entry Touch panel with an advanced 7-inch colour touch screen, Entry Standard panel in anthracite grey and the Entry VR panel in super durable stainless steel

▶ All variants available in flush, surface and rain-hood versions - suitable for a range of environments

▶ Three monitors available, including premium and audio, to create a custom solution for any site

▶ Personalise the Entry Touch panel with multiple theme options and contact images for quick visual recognition

▶ Video voicemail, enables visitors to leave a video message

▶ Add a secondary IP camera for higher security sites

▶ Reads Paxton and MIFARE® token technology

Standalone Entry system does not require connection to a network or server

NEW **Entry now works Standalone**

Our video door entry system now works in standalone mode for a quick, simple installation and easy user management with our standard enrolment and shadow cards. Offer a flexible system that can grow in line with your customers' requirements and be upgraded to an online Net2 solution, with no hidden costs.

- Enable offline token-based access control on any Entry site
- Simple user management utilising Paxton's standalone functionality
- Upgrade existing standalone sites with video door entry for extra convenience
- Combine with other Paxton standalone products to build an entire easy-to-use system supporting the same tokens across the site
- See Standalone card packs on **page 40**

Watch the New Entry Video

Show your customers the benefits of our simple video door entry solution in just two minutes, with the new Entry video.

- ▶ Featuring the whole Entry range, including the new touch panel and premium monitor
- ▶ Just 3 components that auto-detect on set up
- ▶ Discover a scalable solution that suits a variety of locations

Standalone
Access Control

Standalone access control is the simplest way to secure and control access through doors around your building. If you're looking to step up security, protect your staff and assets and save money, then Standalone access control is for you.

▸ A non-networked access control solution

▸ Simple and unique card management system

▸ Internal (Compact)/external (Switch2)

▸ Suitable for small to medium sized premises, or any site looking to secure a small number of doors

▸ Entry and PaxLock Pro now work in standalone mode

Standalone Access Control

Switch2

Switch2 is a standalone system that comes as a separate single door controller and reader. The door controller is fitted on the secure side of the door, with the reader fitted on the other side. Switch2 offers a secure solution for customers wishing to control door access, who do not need the reports on users' movements provided by a PC based access control system.

Entry

Our video door entry system now works in standalone mode for a quick, simple installation and easy user management with our standard enrolment and shadow cards. Offer a flexible system that can grow in line with your customers' requirements and be upgraded to work with Net2, with no hidden costs.

PaxLock Pro
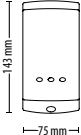

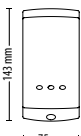

The latest addition to our range of wireless access control solutions, in a door handle can also be installed in standalone mode for use on sites not requiring the additional functionality of an online system. It's flexible upgrade path from standalone to networked creates a solution which can evolve with the needs of your customer. Internal and external versions are available in both black or white.

Paxton 5 Year Guarantee and Hassle Free Returns Policy

We offer a five year guarantee on all our products*. If a problem arises, follow these three simple steps and we will get your return sorted:

1. Call into Support if a problem arises on site, Support will then troubleshoot the issue.

2. If the issue cannot be solved, you will be supplied with a returns number.

3. Within 30 days you can either:

   a. Send the product directly to Paxton with the returns number for an exchange

   b. Return to your distributor for an exchange
